

2017 #1 IN THE WORLD
COLLECTION

As HJC approaches 45 years of manufacturing motorcycle helmets exclusively, we hereby renew our long commitment to provide only the highest quality of helmets to motorcyclists in Europe and around the globe.

In the past few years, HJC has focused its attention in the creation of innovative technology and the most modern helmets of our time. The outcome has been rather impressive.

With the successful introduction of RPHA 10 Helmet with its P.I.M. technology, HJC continues to push the advancement of technology. It is easily recognized as the brand of choice throughout Europe. To continue with the momentum HJC has built with the launch of RPHA 10 Plus, for 2016, we are extremely proud to present the all new high performance helmet, RPHA 11! RPHA 11 is designed with input from Two Time Moto GP Champion Jorge Lorenzo.

As the industry and motorcycle riders around the world know, RPHA 10 was one of the best performing helmets in its class. Therefore, it was rather challenging for the engineers at HJC to make RPHA 11 even better. Incredibly, HJC achieved just this. The All New RPHA 11's aerodynamic design is revolutionary in its class. Its industry leading compact shell shape and super light-weight surpasses all of its competitors. Its advanced ventilation system and advanced noise reduction system are clearly step above its predecessor and the rest of the competition. Further, you don't have to look closely to notice the lighter RPHA 11. You can feel it. Lastly, there are several new features that make the RPHA 11 safer and more comfortable than ever before. Try one on today to see and feel the difference! We have a strong feeling that the Champion Jorge Lorenzo will win a number of more races with his new RPHA 11 in 2016 and beyond. And we have a feeling that you too will love your new RPHA 11!

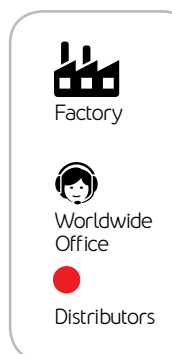

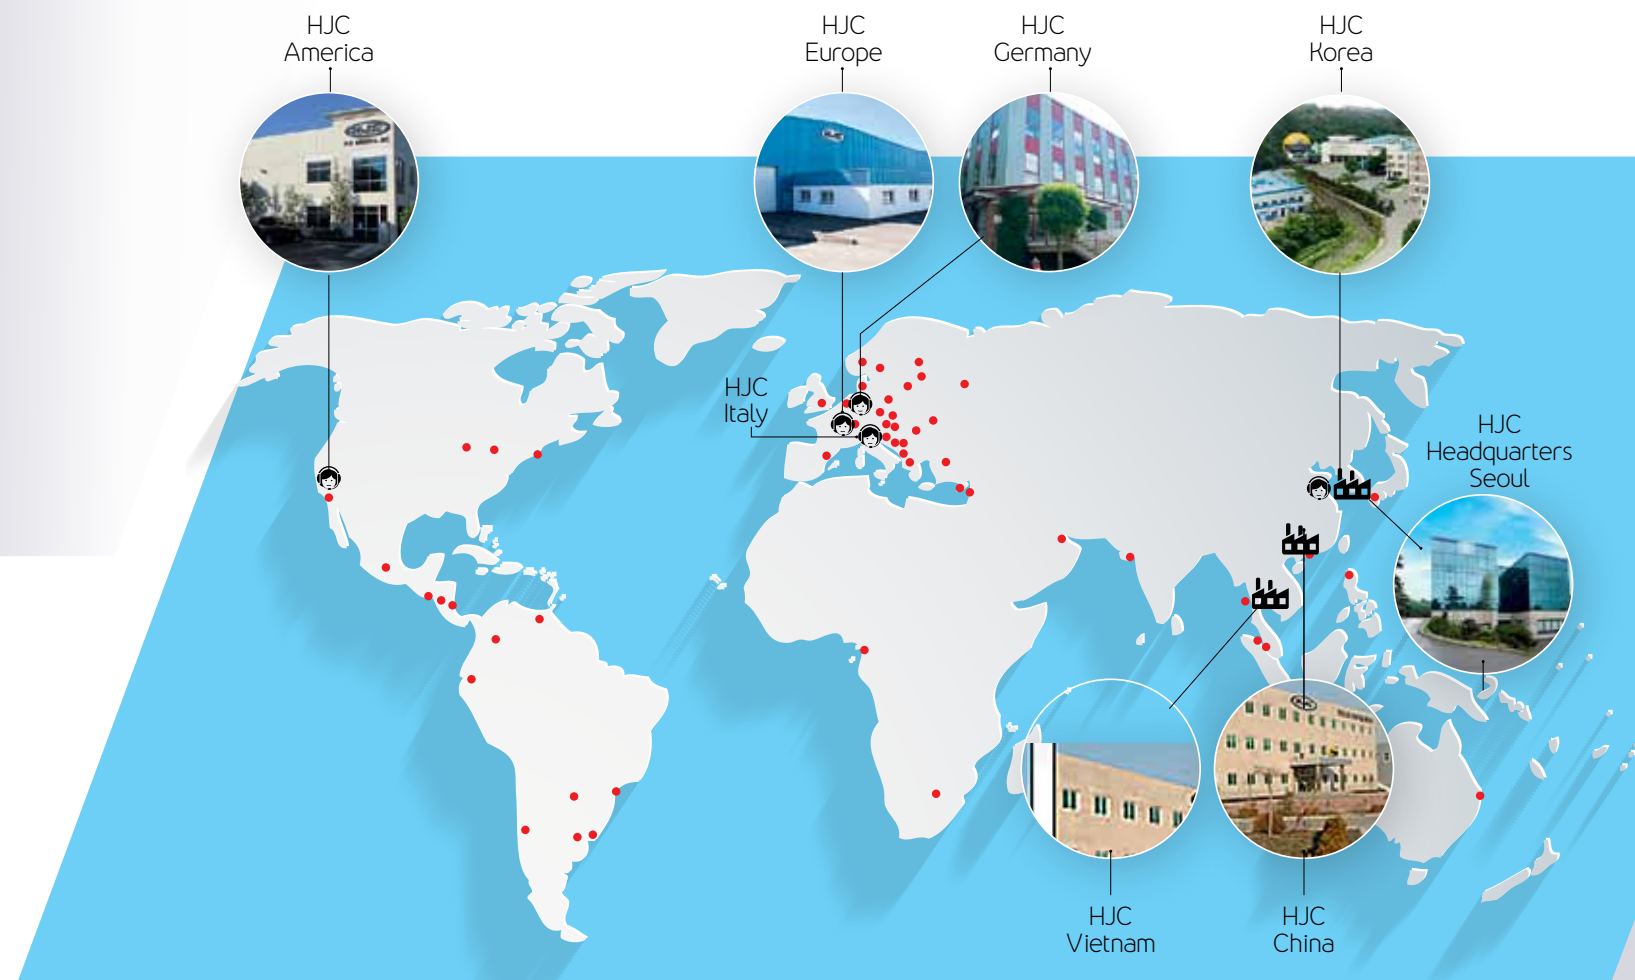

History & evolution

In 2015, we introduced the all new IS-MAX II. Since its introduction, members of the media have been praising the IS-MAX II without reservation. IS-MAX II was ranked the highest in quality and performance by the reputable Motorrad Magazine for helmets under 495 Euros. And for 2016, we are excited to bring you several new graphic designs and new models. In addition to our premium line up of helmets in RPHA 11, we are proud to introduce some new designs on our more value driven products such as RPHA ST, FG-ST, IS-17, FG-70 S and others. They are some of the most popular helmet models in the market place simply because of their fantastic value driven features.

With the addition of the All New RPHA 11 and various graphic designs, it is clear that HJC will continue to be the brand of choice for motorcyclists around Europe and the World. We will continue to offer only innovative, safe, and quality helmets. This is a reputation that we have earned through hard work during the past 45 years. There is no other HJC!

Just trust in HJC and enjoy your ride!

Thank you,
HJC Family

Our Factories are dedicated to quality and a reasonable price

HJC has 3 factories based in South Korea, China, and Vietnam, which produce more than one Million helmets per year. Your helmet is hand-made by very skilled workers with over 40 steps in that process. The perfect logistics guarantees a reasonable price. The quality control ensures your satisfaction.

The largest sales distribution networks Worldwide

A good distribution organization and suited warehouses enable HJC to deliver more than one million helmets around the world. In the USA and Europe, hundreds of thousands of helmets, accessories, and spare parts are stored ensuring an outstanding delivery and after-sales service.

RPHA 11

The Win'R

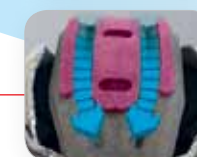

With the all-new RPHA 11, HJC once again sets new standards for helmet performance. Many additional design innovations create an aerodynamically superior helmet with excellent ventilation, ultra-plus comfort and outstanding safety features. In total, the RPHA 11 indisputably demonstrates why HJC remains #1 in the world.

#1 IN THE WORLD

Wind-Tunnel Tested

Superior airflow characteristics formed in the HJC wind tunnel

Newly Designed Liner Offers Maximum Air Flow

Specially designed channels route cooling air throughout helmet interior

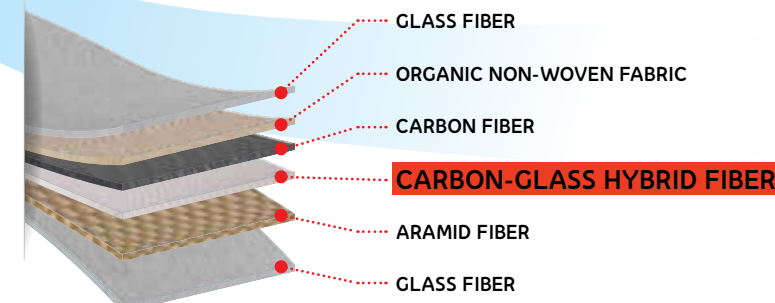

New Bottom/Rear Exhaust Vents

Strategically positioned to increase exit flow of hot air

P.I.M. PLUS

Reinforcement materials, including Carbon and Carbon-Glass Hybrid fabric, provide enhanced Shock-Resistant performance, more comfort, and lightness of helmet.

Easy-To-Use Emergency Quick Release

Cheek pads can be removed quickly to assist emergency helmet removal

Sleek Shell Design

Appealing shape is also aerodynamically sound for greater comfort

Detachable Chin Curtain

Reduces wind noise and blocks out turbulent airflow

Precision Top-Vent Control

Positive, multi-position vent controls incorporate Glove-friendly scroll action

Aerodynamic Top Vent

Advanced shape and location for increased air intake plus stylish lines

New Forehead Vent

Increases air intake and channels cooling air for improved circulation

Enlarged View Port

Improved rider view range derived from extensive racing experience

Multi-Point Locking System

Clean, simple design provides an extra-secure shield seal

Redesigned Side Intake Vents

Easy-open vents enhance air flow and help clear shield fogging
