# ALL HELMETS ARE NOT CREATED EQUAL

With a never ending passion & seeking continual improvement, Shoei are the first to introduce Carbon Fibre/Dyneema & Kevlar® into the manufacturing process.

Shoei were also the first to design features like the podless & tool-less visor removable system, along with the dual density channelled EPS liner.

With constant information & rider feedback from the world's best racers, Shoei has integrated the latest 'state of the art' technology into the helmets we all buy today.

Shoei continue to provide innovative & cutting edge developments into every model ensuring that the comfort, safety, style & graphics remain the best in the world!

SINCE  
**1959**

## BORN FROM RACING\_ WHEN MILLISECONDS COUNT

The all-new SHOEI X-Spirit III is track certified by Marc Marquez & Bradley Smith, two of the fastest road racers on the planet!

The X-Spirit III is a proven race weapon for those who aren't willing to sacrifice a single detail when it comes to high-end performance.

Like the handcrafted race bikes that dominate MotoGP's premiere racing circuits, every detail of the X-Spirit III was carefully designed, tested and fine-tuned until this final, uncompromised masterpiece was born.

*"The new X-Spirit III is an evolution of the X-Spirit II. It's an incredible helmet, improved in all its parts, with particularly attention to the aerodynamic design."*

*"The ventilation has improved too. In fact, there are more exits for the air."*

*"I love the shape. It's much more modern compared to the previous model."*

*"I have been with Shoei since 2010 and from the very first moment I knew that this was my helmet."*

*"In the last months I have given my comments and suggestions. I would like to thank Shoei for their full commitment to safety and for their constant dedication to development. Safety is vital in our sport."*

**Marc MARQUEZ #93** 3x MotoGP World Champion (2013, 2014 & 2016)

## BORN FROM RACING

### DESIGN CONCEPT

- Developed utilising rider input from the world's top racers like Marc Marquez & Bradley Smith
- Tested in SHOEI's wind tunnel for next-level aerodynamics and ventilation
- Enhanced high-speed stability while reducing drag and negative forces
- Ventilation performance features innovative cheek pad cooling system
- Patent-pending adjustable/rotating liner components for customisable fit and greater field of vision

### AERODYNAMICS

- Refined in SHOEI's wind tunnel to yield the most aerodynamic, stable X-Series yet!
- MotoGP developed aerodynamics provide exceptional stability at all speeds, even in excess of 300km/h!
- All-new shell shape along with a completely redesigned, patent-pending Rear Stabiliser
- Standard Rear Flaps can be replaced with optional, narrower flaps to customise aerodynamics
- Strategically placed ridges along the top shell and chin bar reduce turbulence and drag
- Maximises high-speed stability while reducing negative forces to the rider

### VENTILATION PERFORMANCE

- Six (6) air intakes and six (6) exhaust outlets optimised for maximum airflow
- All-new cheek pad cooling system, unique to the SHOEI X-Spirit III
- Newly positioned side air outlets improve hot air expulsion
- Wind tunnel-optimised to excel in the tucked racing position, even behind windscreens

### CWR-F FLAT RACE VISOR

- Protects from 99% of the sun's damaging UV rays
- Accessory Dark Tint, Light Tint & Hi-Def Yellow visors available separately
- Innovative new ribs on top and bottom edge improve rigidity and eliminate bending
- Exclusive, patent-pending Vortex Generators reduce air friction
- All-new double shield locking mechanism prevents unwanted shield openings
- Provides a flat surface to accommodate racing tearoffs (Available separately)
- Comes equipped with Pinlock® EVO fog-resistant system & tear-off posts

**\*NOTE** – CWR-1 visors from the Shoei NXR are interchangeable with the X-Spirit III with no adjustment needed, allowing the fitment of Iridium/Spectra and Transitions visors, and clear and tint street visors (with no tear-off posts)

#### CWR-F FLAT RACING VISOR WITH TEAR-OFF POSTS (AVAILABLE IN 4 COLOURS)

CLEAR	1114798	RRP \$109.95
DARK TINT	1114799	RRP \$109.95
HI-DEF YELLOW	1114800	RRP \$109.95
LIGHT TINT	1114801	RRP \$109.95

#### CWR-1 (NXR) STREET VISORS (AVAILABLE AS OPTION FOR X-SPIRIT III)

SILVER SPECTRA/IRIDIUM	1112346	RRP \$159.95
BLUE SPECTRA/IRIDIUM	1112347	RRP \$159.95
GOLD SPECTRA/IRIDIUM	1112348	RRP \$159.95
TRANSITIONS PHOTOCHROMIC	1114042	RRP \$249.95

### QR-E BASE PLATE SYSTEM

- Facilitates quick and smooth shield changes
- SHOEI's patented spring-loaded technology ensures a wind and waterproof seal
- Strengthened springs for more precise functionality
- Innovative five-stage rotating dial for shield/base plate fine-tuning

### MULTI-PLY MATRIX AIM+ SHELL

- 6 Layer AIM+ Proprietary Technology Shell Construction
- Hand-laid interwoven layers of fiberglass with organic fibers and resin
- SHOEI's super-lightweight, premium high strength shell for optimum Moto GP level protection!

CHEEK PAD COOLING SYSTEM

CLEAR

LIGHT

DARK

HI-DEF

REAR STABILISER

### DUAL-LAYER / MULTI-DENSITY EPS LINER

- Enhanced impact absorption is achieved using varying foam densities
- Precision aligned channels allow cooling air to travel unrestricted through multiple tunnels in the EPS
- Precise placement of multi-density EPS material yields a more compact, lightweight design
- EPS lined chin bar enhances safety for full wrap around protection

### 3D MAX-DRY CUSTOM INTERIOR

- Patent-pending Rotating Liner components can be set in 2 separate positions:
  - #1 Standard position is for normal/sports riding.
  - #2 Race position rotates the helmet 4 degrees to increase upper field of vision in the tucked race position
- All-new cheek pad cooling system delivers fresh cooling air to rider's cheek area – totally unique to SHOEI!
- Exclusive Max-Dry material absorbs and dissipates sweat twice as fast as traditional nylon
- Fully removable, washable, replaceable & adjustable
- Optional sizes of each section of the centre pad are available for a completely customizable fit
- Three-dimensionally shaped interior perfectly matches the contours of a rider's head
- Glasses compatible liner with recessed slots for riders who wear eye-glasses/spectacles
- D-Ring strap retention system with end clip

### EMERGENCY QUICK RELEASE SYSTEM (E.Q.R.S.) +

- Allows emergency medical personnel to easily and safely remove the cheek pads from an injured rider's helmet
- Helmet can be gently removed from an injured rider's head with minimal load placed on his/her neck

### 4 SHELL SIZES

While our competitors rely on foam padding for fitting a wide range of customers, SHOEI offers an industry leading four shell sizes in the X-Spirit III to ensure a custom fit for heads between the sizes of XS-XXL.

### INTERCOM COMPATIBLE

- Designed to be fully intercom prepared and compatible with all the top selling intercoms on the market
- Removable ear sections make fitting intercoms a breeze – just pull out the removable earpiece and fit your intercom in the purpose built recess provided

## PERFORMANCE HELMET

At Shoei we never stop pushing progression within our line of premium motorcycle helmets. Enter the all-new NXR. With a world-class team of designers and engineers leading the charge, SHOEI utilized its 55-year wealth of knowledge, state-of-the-art wind tunnel facility, proprietary materials, and the industry's most stringent quality assurance practices to develop the next-generation NXR helmet. A lighter, more compact, streamlined helmet with next-level functionality, SHOEI's NXR has evolved the pursuit of perfection to an all-new level.

### COMPACT, LIGHTWEIGHT, AERODYNAMIC DESIGN

- Shoei's state-of-the-art wind tunnel at our Ibaraki Factory was the key to the NXR Helmet Design Process
- Thanks to the countless hours spent in the wind tunnel & real world testing, the NXR sports a more compact & aerodynamic shell than its predecessors. Its the lightest full face sports helmet in the Shoei line!
- Optimal Shell Aerodynamics and Internal Liner design reduce unwanted wind and road noise
- Integrated spoiler reduces drag, lift and turbulence

### MULTI-PLY MATRIX AIM SHELL

- Multi-Ply Matrix AIM Shell construction
- Combining fiberglass with organic fibers, the NXR proprietary AIM Shell is incredibly strong, extremely lightweight, and provides the optimal combination of strength and elasticity
- Industry-leading four shell sizes to ensure a custom fit for heads between the sizes of XS-XXL

### DUAL-LAYER/MULTI-DENSITY EPS LINER

- Dual-Layer, Multi-Density EPS liner provides enhanced impact absorption by utilizing varying densities of foam in key areas around the riders head
- Designed to allow cool air to travel unrestricted through channels created in the EPS, further enhancing the NXR's superior ventilation
- Precision placement of multi-density EPS liner material yields a more compact, lightweight design

### PRECISION QR-E BASE PLATE SYSTEM

- All-new QR-E base plate system facilitates faster shield changes than ever before
- Strengthened spring-loaded base plates pull the shield back against the dual-lip, dual-layered window beading to ensure a wind and water resistant seal
- New five-stage rotating dial that allows fine-tuning the base plate's position easily and accurately

### CWR-1 VISOR

- Protects from 99% of the sun's damaging UV rays
- Innovative new ribs on top and bottom edge improve rigidity and eliminate bending
- Comes equipped with Pinlock® EVO fog-resistant system

**\*NOTE** – CWR-F visors from the Shoei X-Spirit III are interchangeable with the NXR with no adjustment needed, allowing the fitment of FLAT RACE VISORS (with tear-off posts). All visors are PINLOCK Prepared

#### CWR-1 (NXR) STREET VISORS (AVAILABLE AS OPTION FOR X-SPIRIT III)

CLEAR	1112344	RRP \$109.95

LIGHT TINT	1114801	RRP \$109.95

### 3D MAX-DRY INTERIOR SYSTEM II

- Fully removable, washable, adjustable and replaceable 3D Max-Dry System II interior
- Glasses compatible liner with recessed slots for riders who wear eye-glasses/spectacles
- 3D centre pad is three-dimensionally shaped to match the contours of a rider's head, allowing for an extremely comfortable fit while maintaining the firm hold necessary for distraction-free, high-speed riding
- 3D contoured cheek pads are available in multiple sizes for a customizable fit
- Max-Dry System II liner material absorbs and dissipates sweat and moisture twice as fast as traditional Nylon helmet interiors
- D-Ring strap retention system with end clip

### EMERGENCY QUICK RELEASE SYSTEM (E.Q.R.S.) +

- Allows emergency medical personnel to easily and safely remove the cheek pads from an injured rider's helmet
- Helmet can be gently removed from an injured rider's head with minimal load placed on his/her neck

### 4 SHELL SIZES

While our competitors rely on foam padding for fitting a wide range of customers, SHOEI offers an industry leading four shell sizes in the NXR to ensure a custom fit for heads between the sizes of XXS-XXL.

### INTERCOM COMPATIBLE

- Designed to be fully intercom prepared and compatible with all the top selling intercoms on the market
- Removable ear sections make fitting intercoms a breeze – just pull out the removable earpiece and fit your intercom in the purpose built recess provided

## SPORTS TOURING

The new SHOEI GT-Air helmet makes it easier to adapt to the ever-changing conditions on the road ahead. Features like the convenient flip-down internal sun shield, free-flowing yet easily adjustable ventilation system, superior aerodynamics, and Pinlock EVO Anti-Fog System ensure greater comfort and encourage more time in the saddle than ever before. Answer the call of the open road in SHOEI's first internal sun shield-equipped full-face helmet —the progressively stylish **GT-AIR!**

### PROGRESSIVE SHELL DESIGN

- Wind Tunnel designed aerodynamics perfected in Shoei's own high speed wind-tunnel facility
- Shell-Integrated Spoiler Reduces Aerodynamic Lift and Drag
- Sleek shell profile enhances in line stability and reduces turbulence
- AIM+ Shell Construction results in world leading safety

### NOISE REDUCTION TECHNOLOGY

- Multiple upgrades and thorough redesign of the shell, ventilation, visor mechanism and interior liner shape have resulted in significant reductions in unwanted wind and road noise

### VENTILATION PERFORMANCE

- Large upper and lower vent shutters flow cool air throughout the helmet
- Simple design means ease of use with riding gloves
- The entire ventilation system has been wind tunnel-optimized to maximize airflow and improve negative air pressure, resulting in superior and quiet exhaust extraction

### DUAL LAYER / MULTI-DENSITY EPS LINER

- Enhanced impact absorption is achieved using varying foam densities
- Precision aligned channels allow cooling air to travel unrestricted through multiple tunnels in the EPS
- Precise placement of multi-density EPS material yields a more compact, lightweight design
- EPS lined chin bar enhances safety for full wrap around protection

### MULTI-PLY MATRIX AIM SHELL

- Multi-Ply Matrix AIM Shell construction
- Combining fiberglass with organic fibers, the NXR proprietary AIM Shell is incredibly strong, extremely lightweight, and provides the optimal combination of strength and elasticity
- Industry-leading four shell sizes to ensure a custom fit for heads between the sizes of XS-XXL

### CNS-1 VISOR

- Wider and taller field of vision with improved peripheral vision
- CNS-1 visor offers protection from 99% of the Sun's Damaging UV Rays
- 100% optical clarity for distortion-free view throughout the entire field of vision
- Supplied equipped with a Pinlock® EVO Fog-Resistant System

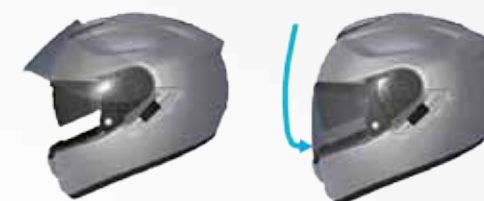

#### CNS-1 VISORS (AVAILABLE SEPARATELY)

CLEAR	1110600	RRP \$99.95

BLUE SPECTRA/IRIDIUM	1113564	RRP \$159.95

### ONE-TOUCH QSV-1 SUNSHIELD

- QSV-1 sun shield gives riders instant relief from sun glare in one quick motion
- Large, easily located switch activates the 3D inner shield
- 100% Optically correct and distortion-free, anti-fog, scratch-resistant visor
- Blocks 99% of the sun's damaging UV rays just like the CNS-1 external shield that lies ahead
- Unique to Shoei, the forehead area of the outer shell is raised slightly to accommodate the internal sun shield, allowing for the integrity of the helmet's inner EPS protection liner to remain intact so there is no compromise to safety

### QR-N BASE PLATE SYSTEM

- QR-N base plate system offers smooth and easy Shield Changes
- Dual Stage Patented Spring-Loaded Technology ensures a perfect wind and water resistant seal

### 3D MAX-DRY INTERIOR SYSTEM

- 3D contoured interior comfort liner is fully removable, washable, and replaceable
- Glasses compatible liner with recessed slots for riders who wear eye-glasses/spectacles
- The max-dry liner material absorbs and dissipates sweat twice as fast as traditional nylon interiors
- Multi-layer cheek pads provide maximum comfort and helmet stability at speed
- 3D shape perfectly matches the contours of a rider's head
- D-Ring strap retention system with end clip

### EMERGENCY QUICK RELEASE SYSTEM (E.Q.R.S.) +

- Allows emergency medical personnel to easily and safely remove the cheek pads from an injured rider's helmet
- Helmet can be gently removed from an injured rider's head with minimal load placed on his/her neck

### INTERCOM COMPATIBLE

- Designed to be fully intercom prepared and compatible with all the top selling intercoms on the market
- Removable ear sections make fitting intercoms a breeze – just pull out the removable earpiece and fit your intercom in the purpose built recess provided

NEW 2017 HELMET  
**RYD**  
STREAMLINED FUNCTION

Equipped with many of SHOEI's top features while keeping functionality efficient and to the point, the All New RYD is anything but "entry level". Boasting a compact, aerodynamic shell design along with sharp and aggressive styling, the RYD has a progressive look all of its own. Exceptional airflow, an advanced shield system, and a fully removable liner allow the RYD to excel whether short-distance street performance or long-distance touring comfort is your jam. The RYD-Streamlined functionality and affordability with premium SHOEI quality.

## PREMIUM TOURING

Unsurpassed long distance comfort and noise reduction the two key elements in the design of the Qwest, and it delivers. The Qwest combines revolutionary noise reduction technology, advanced ventilation performance, Shoei's renowned quality, and a fit and feel that is lightweight and balanced has resulted in a refined, hand crafted touring helmet to complement today's high performance motorcycles.

### WIND TUNNEL DESIGNED AERODYNAMICS

- Qwest shell shape is wind tunnel designed to offer low drag and premium stability in an upright riding position, perfect for touring and cruiser style motorcycles
- Integrated rear spoiler reduces drag and lift
- Smooth design and 3D curved visor significantly reduce the load on the rider's neck

### NOISE REDUCTION TECHNOLOGY

- Shell shape and interior liner design reduce unwanted road noise
- Reduction in wind noise without blocking 'informative sounds'

### VENTILATION PERFORMANCE

- Large lower vent allows influx of cool air and assist in visor defogging
- Easy to use with gloves on
- Strategically positioned upper inlet vent for optimized airflow in an upright riding position
- Dual exhaust vents positioned to utilize negative air pressure behind the helmet to draw out hot air
- Dramatically improved cool air inlet and hot air extraction

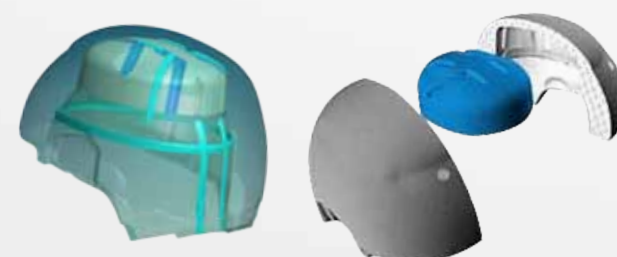

### CW-1 VISOR

- Wider and taller field of vision with improved peripheral vision
- CW-1 visor offers protection from 99% of the Sun's Damaging UV Rays
- 100% optical clarity for distortion-free view throughout the entire field of vision
- Supplied equipped with a Pinlock® EVO Fog-Resistant System

### DUAL LAYER EPS LINER SYSTEM

- Provides enhanced & progressive impact protection through use of varying density foam
- EPS lined chin bar provided full 360 degree 'wrap around' protection
- Multiple channels through the EPS layers allow cool air to flow unrestricted to vastly enhance cooling

#### CW-1 VISORS (AVAILABLE SEPARATELY)

### MULTI-PLY MATRIX AIM+ SHELL WITH INTEGRATED SPOILER

- 6 Layer Multi-Ply Matrix AIM Shell construction
- Combining fiberglass with organic fibers, Shoei's proprietary AIM+ Shell is incredibly strong, extremely lightweight, and provides the optimal combination of strength and elasticity
- 4 shell sizes to ensure a custom fit for heads between the sizes of XXS-XXL

### ULTIMATE COMFORT LINER

- 3D shaped interior liner provides premium comfort with exceptional hold perfect for long distance & high speed riding
- Removable cheek pads are 3D shaped and feature progressive layers of foam for supreme comfort and firm hold
- Cheek pads available in 6 thicknesses for a fully customizable fit
- Glasses compatible liner with recessed slots for riders who wear eye-glasses/spectacles

### INTERCOM COMPATIBLE

- Designed to be fully intercom prepared and compatible with all the top selling intercoms on the market
- Open ear sections make fitting intercoms a breeze - fit your intercom in the purpose built recess provided

## PREMIUM MODULAR

Since the introduction of our first flip-up helmet in 1993, we have been pursuing the perfection and maximum convenience required for our flip-up modular helmets. The celebrated 'NEOTEC', is our finest offering to date!

Boasting improved shell aerodynamics, a wider and taller field of vision, a reduction in wind noise, an internal sun shield, and a fully removable, washable and replaceable liner system, the Neotec is the next level of modular helmet design for today's hybrid motorcyclists, which is why it is the helmet of choice for many of Australia's Police and Emergency Services.

### NOISE REDUCTION DESIGN

- Aerodynamic design refined in SHOEI's in house Wind Tunnel Facility
- Shell, Ventilation and Interior design results in a reduction of unwanted wind and road noise
- Dual ridge window beading and the chin bars' 'Vortex Generator' Lip reduce noise and manage airflow around the helmet

### VENTILATION PERFORMANCE

- Large upper and lower air vents with shutters that allow easy use with gloves
- 3 position upper vent positioned for optimal air intake
- Wind tunnel optimized for dramatically improved cool air intake and hot air expulsion
- Channeled ventilation through Multiple EPS layers ensure maximum airflow with minimal noise

### AIM COMPOSITE SHELL WITH INTEGRATED SPOILER

- 6 Layer AIM Shell Construction
- Hand-laid interwoven layers of fiberglass with organic fibers and resin
- Integrated spoiler reduces drag & lift

### MODULAR CHIN BAR WITH 360 DEGREE PIVOT LOCKING SYSTEM

- Instantly converts into an open-face configuration
- Lightweight chin bar and face shield rotate with smooth precision on a single axis point
- Enlarged chin bar lock release button facilitates easy handling with gloves on
- Proven "360° Pivot Locking System" is made of high quality stainless steel components
- Ensures a safe and secure closure when the chin bar is in the locked position

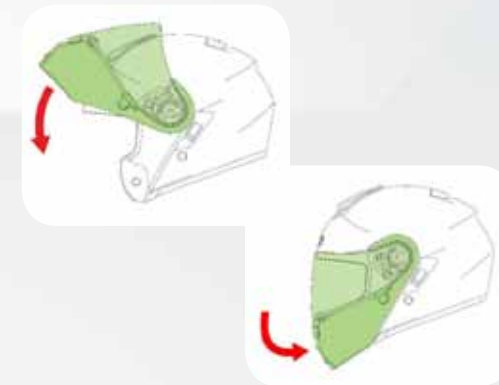

### NEW CNS-1 VISOR

- Increased vision – Wider and taller than previous models
- CNS-1 clear outer visor protects from 99% of the sun's damaging UV rays
- Optically correct, and distortion free with exclusive QR-N base plate system for fast smooth visor changes and perfect wind and weather seal
- Supplied equipped with a Pinlock® EVO Fog-Resistant System – Exclusive to SHOEI
- QR-N base plate allows fast visor changes with no tools, plus dual stage action ensures a wind and weather proof visor seal

#### CNS-1 VISORS (AVAILABLE SEPARATELY)

CLEAR	1110600	RRP \$99.95
DARK TINT	1113566	RRP \$109.95
SILVER SPECTRA/IRIDIUM	1113565	RRP \$159.95
BLUE SPECTRA/IRIDIUM	1113564	RRP \$159.95

### DUAL LAYER / MULTI-DENSITY EPS LINER

- Enhanced impact absorption is achieved using varying foam densities
- Precision aligned channels allow cooling air to travel unrestricted through multiple tunnels in the EPS
- Precise placement of multi-density EPS material yields a more compact, lightweight design
- EPS lined chin bar enhances safety for full wrap around full face helmet protection

### FULLY REMOVABLE 3D INTERIOR LINER

- Fully removable, washable, and replaceable interior system
- 3D liner components are three- dimensionally shaped to perfectly match the contours of a rider's head
- Glasses compatible liner with recessed slots for riders who wear eye-glasses/spectacles
- The result is an extremely comfortable fit while maintaining the firm hold necessary for distraction-free, long distance and high-speed riding
- Multi-layer cheek pads are available in different thicknesses for a fully customizable fit
- Features SHOEI's unique Stainless Steel Micro Ratchet Strap Retention system
- Stainless steel interlocking system provides uncompromised safety
- Quick Release & simple and easy to adjust

### ONE-TOUCH QSV-1 SUNSHIELD

- QSV-1 sun shield gives riders instant relief from sun glare in one quick motion
- Large, easily located switch activates the 3D inner shield
- 100% Optically correct and distortion-free, anti-fog, scratch-resistant visor
- Blocks 99% of the sun's damaging UV rays just like the CNS-1 external shield that lies ahead
- Unique to Shoei, the forehead area of the outer shell is raised slightly to accommodate the internal sun shield, allowing for the thickness of the helmet's inner EPS protection liner to remain constant so there is no compromise to safety

### 3 UNIQUE SHELL SIZES & 5 EPS LINER SIZES

Ensures a perfect fit, compact dimensions and light weight!

### INTERCOM COMPATIBLE

- Designed to be fully intercom prepared and compatible with all the top selling intercoms on the market
- Removable ear sections make fitting intercoms a breeze – just pull out the removable earpiece and fit your intercom in the purpose built recess provided

## CLASSIC OPEN-FACE WITH VISOR

Whether you ride a custom classic or modern retro, the new Shoei J-O will match your ride,  
With no compromise on safety and comfort!

### DESIGN CONCEPT

The J-O is the brand-new classic styled Custom/Cruiser Open Face helmet from Shoei. Ultra-compact and Superlight, the Shoei J-O combines style and safety, with an integrated visor adjustable to 3 positions to fit different profiles perfectly.

### MULTI-PLY MATRIX AIM SHELL

- Shoei aim 6 layer composite shell for optimum rigidity
- 3 Shell sizes and 4 eps sizes ensure perfect size and fit from XS through to XXL
- Superlight weight – from only 950 grams!
- Ultra-compact design ensures low, snug fit

### DUAL-LAYER / 4 PIECE MULTI-DENSITY EPS LINER

- Multi-density EPS liner for premium impact absorbtion
- Optimised protection through eps elements with different shock absorbing levels
- No safety compromise due to visor – most helmet manufacturers sacrifice the thickness of the EPS-liner in the front of the helmet to provide room for an internal visor. This results in a big loss of safety. Shoei keeps the same thickness EPS through the entire helmet so there is no compromise to safety

### DETACHABLE AND WASHABLE 3D INTERIOR

- Premium 3D comfort liner with leather edging
- Fully removable, washable and replaceable interior
- Multi-layer 3D contoured cheek pads offer maximum comfort & hold
- Non-reflective liner material around visor opening reduces reflection for enhanced visibility
- Cheek pads available in varying thickness for custom fitting

### DOUBLE D-RING RETENTION SYSTEM

- Always perfectly adjusted

### REAR GOGGLE STRAP

- With premium Shoei logo snap button

### INTEGRATED CJ-3 VISOR

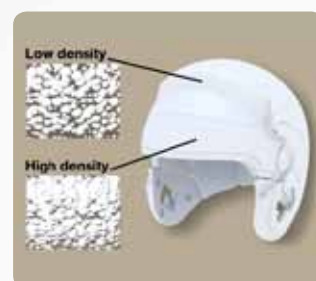

- Integrated CJ-3 visor with protection from 99% of harmful UV rays
- Adjustable in 3 positions for perfect comfort
- Accessory visor colours available separately: Clear, Dark Tint, Hi-Def Yellow
- Wind tunnel design to restrict turbulence
- 100% optically correct

## PREMIUM OPEN-FACE

Who says open Face helmets have to be no-frills? Thanks to contemporary styling, along with a fully removable, washable and adjustable interior, enhanced ventilation performance and a remarkably quiet riding experience, the RJ Platinum-R establishes a higher standard for what an open face helmet should be.

Combined with Shoei's heritage of fine craftsmanship and benchmark safety technology, your left with the world's premier open face helmet – the RJ Platinum-R!

### AIM COMPOSITE SHELL WITH INTEGRATED SPOILER

- 6 Layer AIM Shell Construction
- Hand-laid interwoven layers of fiberglass with organic fibers and resin
- Integrated spoiler reduces drag & lift
- 3 shell sizes and 4 EPS sizes to ensure a custom fit for heads between the sizes of XS-XXL

### FULLY REMOVABLE 3D INTERIOR LINER

- Fully removable, washable, and replaceable interior system
- 3D liner components are three-dimensionally shaped to perfectly match the contours of a rider's head
- Glasses compatible liner with recessed slots for riders who wear eye-glasses/spectacles
- The result is an extremely comfortable fit while maintaining the firm hold necessary for distraction-free, long distance and high-speed riding
- Multi-layer cheek pads are available in different thicknesses for a fully customizable fit

### VENTILATION PERFORMANCE

- Easy to use with gloves on

## ELITE OPEN-FACE WITH SUN-VISOR\_

The new SHOEI J-Cruise is not your average open-face Helmet! Packed with innovative features like the large, smooth-operating and distortion-free CJ-2 shield (complete with an industry-first integrated air dam), a built-in internal sun shield, advanced ventilation, and a fully removable 3D Max-Dry interior system, the J-Cruise does it all while keeping you safe and connected with the road ahead.

### NOISE REDUCTION DESIGN

- Aerodynamic design refined in SHOEI's in house Wind Tunnel Facility
- Shell, Ventilation and Interior design results in a reduction of unwanted wind and road noise
- Visor Air Dam deflects air away from the lower section of the visor, reducing turbulence and wind noise

### AIM COMPOSITE SHELL WITH INTEGRATED SPOILER

- 6 Layer AIM Shell Construction
- Hand-laid interwoven layers of fiberglass with organic fibers and resin
- Integrated spoiler reduces drag & lift
- Industry-leading four shell sizes to ensure a custom fit for heads between the sizes of XS-XXL

### DUAL LAYER / MULTI-DENSITY EPS LINER

- Enhanced impact absorption is achieved using varying foam densities
- Precision aligned channels allow cooling air to travel unrestricted through multiple tunnels in the EPS
- Precise placement of multi-density EPS material yields a more compact, lightweight design

### ONE-TOUCH QSV-1 SUNSHIELD

- QSV-1 sun shield gives riders instant relief from sun glare in one quick motion
- Large, easily located switch activates the 3D inner shield
- 100% Optically correct and distortion-free
- Blocks 99% of the sun's damaging UV rays just like the external CJ-2 visor that lies ahead
- Unique to Shoei, the forehead area of the outer shell is raised slightly to accommodate the internal sun shield, allowing for the thickness of the helmet's inner EPS protection liner to remain constant so there is no compromise to safety

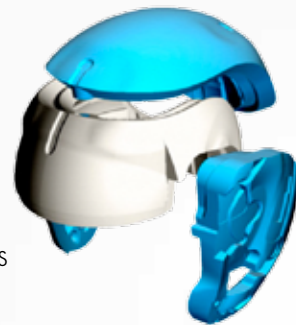

### CJ-2 SHIELD & QR-N BASE PLATE

- Increased vision - Wider and taller than previous models
- CJ-2 clear outer visor protects from 99% of the sun's damaging UV rays
- Optically correct, and distortion free with exclusive QR-N base plate system for fast smooth visor changes and perfect wind and weather seal
- Supplied with Pinlock® EVO Anti fog film - Exclusive to SHOEI
- QR-N base plate allows fast visor changes with no tools, plus dual stage action ensures a wind and weather proof visor seal

**CJ-2 VISORS (AVAILABLE SEPARATELY)**

CLEAR 1111644 RRP \$89.95

FRONT INTAKE

REAR INTAKE

### VENTILATION PERFORMANCE

- Large upper vent positioned for optimal air intake with shutter that allows easy use with gloves
- 3 Exhaust vents use negative pressure to draw out hot air
- Wind tunnel optimized for dramatically improved cool air intake and hot air expulsion
- Channeled ventilation through dual EPS layers ensure maximum airflow with minimal noise

### FULLY REMOVABLE 3D MAX DRY INTERIOR LINER

- Fully removable, washable, and replaceable interior system
- 3D liner components are three-dimensionally shaped to perfectly match the contours of a rider's head
- Glasses compatible liner with recessed slots for riders who wear eye-glasses/spectacles
- Exclusive Max-Dry material absorbs and dissipates sweat twice as fast as traditional nylon
- The result is an extremely comfortable fit while maintaining the firm hold necessary for distraction-free, long distance and high-speed riding
- Multi-layer cheek pads are available in different thicknesses for a fully customizable fit
- Features SHOEI's unique Stainless Steel Micro Ratchet Strap Retention system

### SHIELD LOCKING MECHANISM

The J-Cruise also features a new shield locking mechanism for a secure closure and easy opening.

## PREMIUM DUAL-SPORT/TOURING

The all-new Hornet ADV offer serious adventure riders the perfect helmet for every kilometre of their journey. From city streets to the Birdsville track, the new Hornet Adventure helmet has been designed to maintain peak performance in every environment, without compromising the core values of a long distance touring helmet.

Striking the optimal balance between on-and-off-road form and function is no easy task, and the Hornet ADV redefines the meaning of a true all-road, all-element helmet.

Performance, aerodynamics, ventilation, functionality, and long-distance comfort...

Your Adventure Starts Here with the all new Hornet ADV helmet from SHOEI!

### AERODYNAMIC WIND TUNNEL DESIGNED V-460 PEAK

- Honed to perfection during countless development hours in SHOEI's wind tunnel and on the road to create the perfect balance between aerodynamics and traditional peak functionality
- Innovative "wedge" shape along with strategically placed vent louvers allow wind to pass through unobstructed during high-speed riding, massively reducing lift, drag and buffeting
- Strategically designed to push air into the Hornet ADV's upper air intake for optimal cooling
- Easy-to-operate 'quarter-turn' screws allow quick removal and installation without tools

### DUAL LAYER / MULTI-DENSITY EPS LINER

- Enhanced impact absorption is achieved using varying foam densities
- Precision aligned channels allow cooling air to travel unrestricted through multiple tunnels in the EPS
- Precise placement of multi-density EPS material yields a more compact, lightweight design
- EPS lined chin bar enhances safety for full wrap around protection

### MULTI-PLY MATRIX AIM+ SHELL

- 6 Layer AIM+ Proprietary Technology Shell Construction
- Hand-laid interwoven layers of fiberglass with organic fibers and resin
- SHOEI's super-lightweight, premium high strength shell for the highest level protection

### NEW CNS-2 VISOR with QR-N DUAL STAGE BASE PLATES

- Increased eye port size offers improved vertical and peripheral vision
- New CNS-2 visor is 100% optically correct & offers unparalleled vision across the entire optical range
- Protects against 99% of the sun's damaging UV rays
- Innovative rib on the top edge of the shield improves rigidity and enhances visor seal for perfect weather and wind protection
- New QR-N Base Plate system facilitates fast visor changes with no need to remove the peak
- Strengthened spring loaded technology and dual lip, dual layered window beading ensure a dust, wind and waterproof seal
- Supplied with Pinlock® EVO Anti fog film – Exclusive to SHOEI

#### CNS-2 VISORS (AVAILABLE SEPARATELY)

CLEAR	1113963	RRP \$99.95
DARK TINT	1113964	RRP \$109.95

### PREMIUM HIGH-FLOW VENTILATION

- 4 Air Intakes and 7 Exhaust vents provide the optimum airflow for dual-sport riders varying speeds, weather conditions and levels of physical exertion
- Large, multi-position lower air intake, optimized for fresh air inhalation and clear vision
- 4 uniquely-positioned rear exhaust outlets use negative pressure to draw out hot air, and 3 neck outlet vents work together to yield unrivalled cool-air intake and hot-air exhaust
- Multiple channels through the EPS liner layers allow a large volume of cool air to flow unrestricted through the helmet

### 3D MAX-DRY INTERIOR SYSTEM II

- 3D Max-Dry Interior System II is fully removable, washable, replaceable and adjustable
- Specially developed liner material absorbs and dissipates sweat and moisture twice as fast as traditional Nylon interiors
- 3D center pad components are three-dimensionally shaped to match the contours of a rider's head
- 3D contoured cheek pads are available in multiple thicknesses for a fully customizable fit
- Glasses compatible liner with recessed slots for riders who wear eye-glasses/spectacles

### GOGGLES OPTIONAL

- Large eye-port accepts goggles when the visor is in the fully open position
- Quick release base plates allow the visor to be easily removed if you prefer to use goggles only

### EMERGENCY QUICK RELEASE SYSTEM (E.Q.R.S.) +

- Allows emergency medical personnel to easily and safely remove the cheek pads from an injured rider's helmet
- Helmet can be gently removed from an injured rider's head with minimal load placed on his/her neck

### INTERCOM COMPATIBLE

- Designed to be fully intercom prepared and compatible with all the top selling intercoms on the market
- Removable ear sections make fitting intercoms a breeze – just pull out the removable earpiece and fit your intercom in the purpose built recess provided

## PREMIUM OFF-ROAD

The VFX-W helmet is the choice of pro level riders all over the world, and it's easy to see why! The extremely lightweight & strong hand laid AIM+ shell construction, unrivalled ventilation performance, 3D Mac-Dry liner, E.Q.R.S., and dual layer, multi-density EPS liner name a few. But there's one simple word that sums it up best – confidence!

Thanks to the unmatched performance, safety and quality of the VFX-W, Team Riders like Josh Grant, Dean Wilson and Taka Higashino ride, race and compete with total confidence, shouldn't you?

### MULTI-PLY MATRIX AIM+ SHELL

- 6 Layer AIM+ Proprietary Technology Shell Construction
- Hand-laid interwoven layers of fiberglass with organic fibers and resin
- SHOEI's super-lightweight, premium high strength shell for optimum race level protection

### VENTILATION PERFORMANCE

- Wind tunnel designed for optimal vent port shapes and locations
- Vent ports maximize airflow and improve negative pressure exhaust suction for dramatically improved, full-time cool air intake and hot air exhaust

### EPS LINER THROUGHOUT CHINBAR

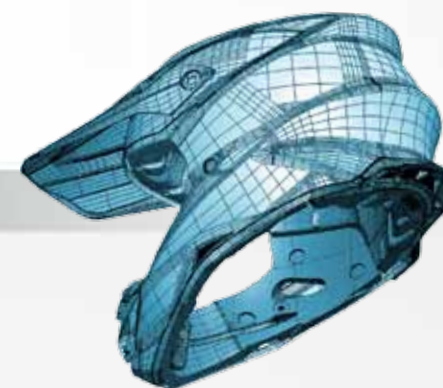

High quality EPS liner material throughout the entire chin bar for enhanced impact absorption

### 'SLEEK' MOUTHPIECE

- Wind tunnel designed to draw cooling air through the chin bar
- Aluminium reinforced mesh screen helps prevent roost from entering the mouthpiece
- Removable, washable foam filter stops roost, rocks, mud & dust entering the helmet
- A strip of AIM+ shell material reinforces mesh screen and enhances safety

### DUAL LAYER / MULTI-DENSITY EPS LINER

- Enhanced impact absorption is achieved using varying foam densities
- Precision aligned channels allow cooling air to travel unrestricted through multiple tunnels in the EPS
- Precise placement of multi-density EPS material yields a more compact, lightweight design
- EPS lined chin bar enhances safety for full wrap around protection

### SHELL INTEGRATED AERODYNAMICS

- Exclusive state-of-the-art shell forming technology
- Incorporates the aerodynamic advantages of a spoiler into the shell
- Consistent shell thickness guarantees premium strength and protection over the entire shell

### LARGE EYEPORT

- Greater peripheral field of vision
- Large eye-port facilitates large goggles
- Optimised to form a perfect goggle strap retention system

### V-430 'SLEEK' PEAK

- Developed by Shoei's sponsored riders
- Lengthened for additional protection from sun and roost
- Adjustment slot lengthened for greater versatility
- Plastic hardware is utilized for easier peak breakaway during impact

### 3D MAX-DRY INTERIOR SYSTEM

- 3D Max-Dry Interior System is fully removable, washable, replaceable and adjustable
- Specially developed liner material absorbs and dissipates sweat and moisture twice as fast as traditional Nylon interiors
- 3D centre pad components are three-dimensionally shaped to match the contours of a rider's head
- 3D contoured cheek pads are available in multiple thicknesses for a fully customizable fit

### EMERGENCY QUICK RELEASE SYSTEM (E.Q.R.S.) +

- Allows emergency medical personnel to easily and safely remove the cheek pads from an injured rider's helmet
- Helmet can be gently removed from an injured rider's head with minimal load placed on his/her neck

## QUALITY MADE IN JAPAN

The name SHOEI has long been synonymous with "premium" in the motorcycle helmet market—a credential that hundreds of loyal men and women in our Japanese factories wear with great pride. The evolution and production of our world-class helmet line is a meticulous process that combines the very latest in technology with consumer feedback, modern testing practices, advanced materials, and nearly 60 years of helmet building experience. Just like the very first SHOEI helmet built by our founder back in 1959, every SHOEI today is still handmade in Japan utilizing a sophisticated process that involves over 50 people for each and every helmet.

### PRODUCTION & QUALITY ASSURANCE

For all the energy and passion invested into the design and development of a product, the same level of care and due diligence must be achieved during the production process. A number of unique, state-of-the-art processes combine to yield the unrivaled quality that only SHOEI helmets are known for, and each helmet must pass several rigorous inspections throughout production before being awarded with the famous SHOEI hexagon.

### SHELL MOLDING TECHNOLOGY

SHOEI's proprietary AIM (Advance Integrated Matrix) and AIM+ shell molding technology integrates a multi-ply matrix of hand-laid interwoven layers of fiberglass with organic fibers and resin. Together, these materials combine to maximize strength and elasticity in a strong yet lightweight shell, and each is personally marked by the technician responsible for it to further endorse the quality of every helmet.

### LASER CUTTING

Robotically controlled lasers give each helmet its final shape by cutting off protrusions created during the shell molding process, as well as creating the openings for eye and ventilation ports. Once this process is complete, all helmets are thoroughly inspected to ensure proper material thickness and weight before moving on to the next phase of manufacturing.

### PAINTING & GRAPHIC APPLICATION

SHOEI's intricate painting and graphics application procedures are second to none. Combining handwork with state-of-the-art automation processes to ensure optimal quality, each helmet boasts a premium painted finish and hand-applied decals before being sealed and protected with several quality layers of clearcoat. Each and every SHOEI helmet receives up to five layers of paint before final assembly.

## AERODYNAMICS & VENTILATION

Motorcyclists live in a stream of moving air, making SHOEI's in-house wind tunnels an integral tool during the design and development process. In addition to shell aerodynamics, the aerodynamic efficiency of spoilers and vents are also analyzed during SHOEI's extensive wind tunnel testing practices. The result: every SHOEI helmet boasts an incredibly sleek design that increases airflow, reduces noise, buffeting and lift, and ultimately enhances the overall comfort and performance of your ride.

An integral part of the development process, SHOEI's ventilation systems direct cooling air in through the front of the helmet, and utilize key areas of low air pressure to the rear of the helmet to draw warm, damp air through its exhaust outlets. Along with the perfect shape and placement of vent intakes and outlets, the air channels in SHOEI's unique Dual-Layer EPS Liner systems are a significant contributor to our helmets' world-class ventilation characteristics.

### FIT & COMFORT

SHOEI knows that one size does not fit all, which is why we offer an industry-leading number of shell sizes, as well as various liner sizes and cheek pad thicknesses to ensure a customizable fit for each and every rider. Along with extensive research on head shapes and sizes, SHOEI incorporates a mix of exclusive comfort and performance features into the construction of every helmet. Groundbreaking components like our 3D Max-Dry Interior Systems, 3D-shaped center pads to match the contours of a rider's head, fully removable, washable and replaceable liner systems, multi-layer cheek pads, eyeglass channels, and integrated neck pads accentuate the impeccable comfort packages exclusive only to SHOEI helmets.

### FINAL ASSEMBLY OF EACH HELMET

A critical step in the manufacturing process, final helmet assembly is done with care and precision, including the installation of ventilation sliders, shield seals, impact absorbing EPS liners, and comfort interiors. Each helmet passes a detailed final inspection before being passed on to the consumer. This strict compliance with the production processes and associated quality control standards guarantee the consistently high quality of a SHOEI helmet.

## AIM+ SHELL CONSTRUCTION

SHOEI's proprietary AIM+ Technology integrates a six-ply matrix of handlaid interwoven layers of fiberglass with organic fibers and resin, resulting in the strongest, lightest, most elastic shell we've ever produced.

## 3D MAX-DRY INTERIOR SYSTEM

SHOEI's 3D Max-Dry interior is a high-performance system featuring proprietary Max-Dry material, proven to absorb and dissipate sweat 2X faster than nylon. Pulling moisture away from the skin results in a cooler, dryer riding and racing experience. Our Max-Dry liners are 3D-shaped to match the contours of a rider's head, yielding our most comfortable fit ever.

## MULTI-LAYER CHEEK PADS

SHOEI's Multi-Layer Cheek Pads combine varying foam densities to find the perfect balance between comfort and helmet stabilization. Variable thickness cheekpads are available for custom fitting.

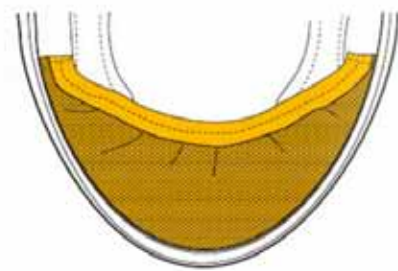

## CHEEK PAD EYEGLASS CHANNELS

SHOEI riders who wear eyeglasses or sunglasses will enjoy the extra comfort yielded from these specially designed channels in our cheek pads - the most efficient method for relieving pressure created by eyeglass arms in the temple area.

## INTEGRATED NECK PAD

In addition to providing improved helmet stability capable of reducing rider fatigue, SHOEI's newly designed, integrated neck pads are effective at preventing unwanted wind and road noise from entering through the bottom of the helmet.

## CHIN CURTAIN

Standard on many SHOEI helmet models, the chin curtain can be inserted into the lower edge of the chin bar to reduce wind turbulence and noise.

## AIRFLOW DEVICES

Enhance your riding experience with SHOEI's exclusive airflow devices. By restricting incoming airflow at the helmet bottom and rerouting the rider's breath to reduce fogging, these accessories further improve the legendary air control found in SHOEI's full-face helmets.

BREATH GUARD

AIR MASK

CHIN CURTAIN

## CUSTOMISE YOUR HELMETS FIT

SHOEI offers a full line of replaceable cheek pads and centre pads in varying thicknesses for most of our street and off road helmets. Once you've found a SHOEI helmet that fits comfortably around the crown of your head, you can easily fine-tune the overall fit by changing to one of our optional cheek pad and/or centre pad sizes.

HELMET BAG

Part No. 1101438

## REPLACEMENT PARTS

SHOEI offers a wide variety of replacement parts and accessories for all of our helmet models.

## SUPERIOR RIDING PERFORMANCE

Whether dominating the racetrack or out for a pleasure ride, motorcyclists know how important clear, crisp vision is. Traditionally, riders deal with changing light conditions by carrying two shields (one clear, one tinted) with them at all times. Transitions® Adaptive Shields not only eliminate the need to carry multiple shields, they actually enhance vision by seamlessly adjusting to optimized darkness levels with the changing light.

## PHOTOCHROMIC MOLECULES MAKE LIGHT, DARK, AND EVERY SHADE IN BETWEEN POSSIBLE

When Transitions® Shields are exposed to UV light, trillions of photochromic molecules in the shield begin to change structure. This reaction is what causes the shields to darken. The superiority of Transitions® brand technology lies in their exclusive, patented formulas. The molecules constantly and smoothly recalibrate so the optimal amount of light reaches your eyes whether you're in bright sunlight or under cloud cover.

## TRANSITIONS® OPTICAL - LEADERS IN PHOTOCHROMIC TECHNOLOGY

Transitions® Optical has been an industry leader in photochromic technology for 20 years and is known worldwide for its photochromic prescription eyeglasses: Transitions® lenses. Driven by innovation, the company has continually improved its core clear-to-dark product by optimum lens durability and performance.

Currently Available for:  
**X-Spirit III & NXR**  
Part No. 1114042

## DESIGNED TO MEET INTERNATIONAL STANDARDS

- UV Protection: Blocks 700% of UVA and UVB rays
- Full activation in 2 minutes\*
- Impact resis tant

## THE EVOLUTION OF FOG RESISTANT PERFORMANCE

Thanks to the innovative features of the all-new Pinlock® EVO, SHOEI riders will experience the clearest view ever under even the most extreme conditions. Tested and proven on the road and racetrack, the Pinlock® EVO passes the most stringent international mist-retardant tests and standards with flying colors! One ride in adverse weather conditions is all it takes to truly appreciate the benefits of the all-new Pinlock® Enhance your ride.

## PINLOCK® EVO OFFERS YOU:

- The most effective anti-fog protection available
- Clear view under extreme/highly demanding circumstances
- Passes stringent international mist-retardant standards
- Highest grade of moisture-absorbing material
- Sustainable and interchangeable
- Simple, one-step process for easy installation and cleaning

## THE PERFECT FIT

No helmet can protect the wearer against all unforeseeable high and low-speed impacts. However, to help maximize head protection, the helmet must fit properly, and the retention system must be securely fastened under the chin. Failure to ride with a proper fitting helmet and securely fastened chinstrap is dangerous, as the helmet could come off during an accident, resulting in severe head trauma or death.

To determine the proper helmet fit and learn how to safely secure your chinstrap retention system, we recommend viewing SHOEI's "Helmet Fit" video at [www.shoei-helmets.com/helmetfit](http://www.shoei-helmets.com/helmetfit), or consult with an authorized SHOEI dealer today. Proper fit is important not only for comfort, but for safety as well.

SIZE	CM
XS	53 - 54
S	55 - 56
M	57 - 58
L	59 - 60
XL	61 - 62
XXL	63 - 64

## HOW TO MEASURE YOUR HEAD SIZE

1. To determine where you fall on SHOEI's sizing chart (as a starting point for proper helmet fit), pass a soft, flexible tape measure horizontally around your head at a height of approximately one inch (2.5cm) above your eyebrows (the largest measurement around your forehead).
2. Select the helmet size that is closest to your head measurement from the sizing guidelines above. If your head measurement falls between two helmet sizes, first try on the smaller of the two helmets.
